Student Portfolio

LEVEL II

Name __________________________
The Level II Student Portfolio is an integral part of the Sonrisas Level II curriculum. You will use it to compile student work in order to assess progress and performance. Used in conjunction with the lessons in the Level II curriculum, the Student Portfolio will strengthen the development of your students’ language acquisition by giving them more practice with the language concepts for each lesson—helping them master the Learning Target.

Note: If you have not purchased individual copies of the portfolio for your students, we encourage you to have students get a three-ring binder in which they can put all their work from the portfolio. You can photocopy the first page for students to use as a cover.

The Student Portfolio contains four different types of pages: Student Assessment pages, Partner Time pages, Portfolio Activity pages, and Home Report pages, each of which corresponds to a lesson in the curriculum.

Students will use the Partner Time pages during the Partner Time segment of each lesson. Your instructions for Partner Time are on the Partner Time procedure pages in the Level II curriculum book. Most Partner Time activities require you to display an image or text that students need to interpret in order to complete the activity. (These can be found on the Resource CD.) The Portfolio Activity pages are designed to be completed by students independently as the culmination of each lesson. You can either assign these activities as homework or students can complete them during class time. Both the Partner Time activities and the Portfolio Activities can be used as formative assessments. (Read more about this in the Assessment section of the introduction in the curriculum book.) The Home Report pages include suggestions for parents on how to enrich their child’s learning at home, and can be photocopied and sent home so parents can see what their child is learning in Spanish class.

The Student Assessment pages are designed to be used as a summative assessment for each thematic unit. They contain the Learning Target for each lesson, along with “I can” statements and a check box for each Performance Target in the lesson. These can be filled out either by you, by your students, or by both of you together.

Welcome to the Sonrisas Spanish Level II Student Portfolio! You will use this portfolio to do all the Partner Time and Portfolio Activities in Sonrisas Level II. Make sure you save all your work in this portfolio. You can show it to your teacher, parents, and friends so they can see how much you’re learning in Spanish class.

The directions for all the activities are in Spanish and English. We encourage you to read the directions in Spanish and use the directions in English to help you with more challenging vocabulary and phrases.

Have fun speaking, reading, and writing in Spanish to complete these activities! The work you’ll be doing to create your portfolio will help you become more proficient in the Spanish language, opening up a new world of fun and interesting experiences for you.

Home Enrichment

This lesson emphasized a celebration of each student’s physical, personal, and cultural qualities. Share any cultural heritage that makes your family special. Celebrate diversity, differences, and customs that define who you are as a family. This can include foods that you prepare, languages you speak, rituals you practice, and cultures (it can certainly be more than one) with which your family identifies.
