Introduction to the Level III Student Portfolio

For the Teacher

The Level III Student Portfolio is an integral part of the Sonrisas Level III curriculum. You will use it to compile student work in order to assess progress and performance. Used in conjunction with the lessons in the Level III curriculum, the Student Portfolio will strengthen what your students are learning by giving them more practice with the language concepts for each lesson—helping them master the Communication Objective.

Note: If you have not purchased individual copies of the portfolio for your students, we encourage you to have students get a three-ring binder in which they can put all of their work from the portfolio. You can photocopy the first page for students to use as a cover.

The Student Portfolio contains six different types of pages: Grammar Lesson (Gramática) pages, Grammar Exercise pages, Communication Strategy pages, reading (Lectura) pages, Partner Time pages, and Home Report and Assessment pages—each of which corresponds to a unit in the curriculum. Students will use the Partner Time pages during the Partner Time segment of each lesson. Your instructions for Partner Time are in the eighth lesson of each unit in the Level III Teacher’s Manual. The Grammar Exercise pages are designed to be completed by students independently as the culmination of each Grammar Lesson. You can either assign these exercises as homework or students can complete them during class time. The Partner Time activities and the Grammar Exercises can be used as formative assessments. You can read more about this in the Assessment section of the introduction in the Teacher’s Manual. The Home Report and Assessment pages, which include suggestions for parents on how to enrich their child’s learning at home, can be photocopied and sent home so parents can see what their child is learning in Spanish class.

The Home Report and Assessment pages are designed to be used as a summative assessment for each unit. They contain the Communication Objective for each lesson, along with “I can” statements and a check box for each Language Outcome in the lesson. These can be filled out either by you, by your students, or by both of you together.

For Students

Welcome to the Sonrisas Spanish Level III Student Portfolio! You will use this portfolio to do all the Partner Time and Grammar Exercises in Sonrisas Level III. Make sure that you save all the work that you do in this portfolio. You can show it to your teacher, parents, and friends so they can see how much you are learning in Spanish class.

The directions for all of the activities are in Spanish and English. We encourage you to read the directions in Spanish and use the directions in English to help you with more challenging vocabulary and phrases.

Have fun speaking, reading, and writing in Spanish to complete these activities! The work you’ll be doing to create your portfolio will help you become more proficient in the Spanish language, opening up a new world of fun and interesting experiences for you.
Ser and Estar

SER AND ESTAR

1. In English there is only one verb to be. In Spanish there are two verbs that mean to be: ser and estar.

2. Ser and estar are not regular verbs, which means they do not follow the same patterns for conjugation as regular verbs. Even though estar ends in -ar, it is not conjugated like regular -ar verbs. In addition, all forms of estar, except the yo and nosotros/as forms, have an accent on the á. Ser and estar are conjugated as follows:

**ser** = to be

yo soy = I am  
él/ella es = he, she is  
tú eres = you (familiar) are  
usted es = you (formal) are  
nosotros/as somos = we are  
vosotros/as sois = you (plural) are  
ellos/ellas son = they are  
ustedes son = you (plural) are

**estar** = to be

yo estoy = I am  
él/ella está = he, she is  
tú estás = you (familiar) are  
usted está = you (formal) are  
nosotros/as estamos = we are  
vosotros/as estáis = you (plural) are  
ellos/ellas están = they are  
ustedes están = you (plural) are

When you read Spanish or have a conversation in Spanish, you most likely won’t understand every word you read or hear. When you come across words or phrases that you don’t know, you can use the context of the reading or conversation to help you guess the meaning of the unknown words and phrases. The context is the subject of the reading or conversation along with the words and phrases that surround the ones you don’t know. The context gives you clues that help you understand the words you don’t recognize.

Read the following paragraph about baseball in Puerto Rico. Then, using the context of the reading, try to guess the meaning of the words listed below.

El béisbol en Puerto Rico
